Jul 29, 2019 In this tutorial we will show you how to install Oracle Database 9i Client on Windows based OS, including 32-bit and 64-bit versions. If you have other version of windows, please contact with us. Finally, Installing Oracle 9i on 32-bit Windows will give you those 4 files below. When you open a command line and run Ora9i\_client.msi, you will see a list of 8 files to be installed. These files are below. TLP.exe is the shortcut for the Oracle client program. The 32-bit base.msi file contains all of the DLLs that are required to run the Ora9i\_client\_x86.exe and Ora9i\_client\_ia32.exe programs. You need to run the base.msi, which installs the files and sets up the environment variables for your program. You don't need to open the TLP.exe, you can run Ora9i\_client.exe, and the client will open with the GUI. What is the difference between these files? InstantClient\_21\_db\_client\_inst1.zip. Don't run oracle client without running this file. Don't leave
